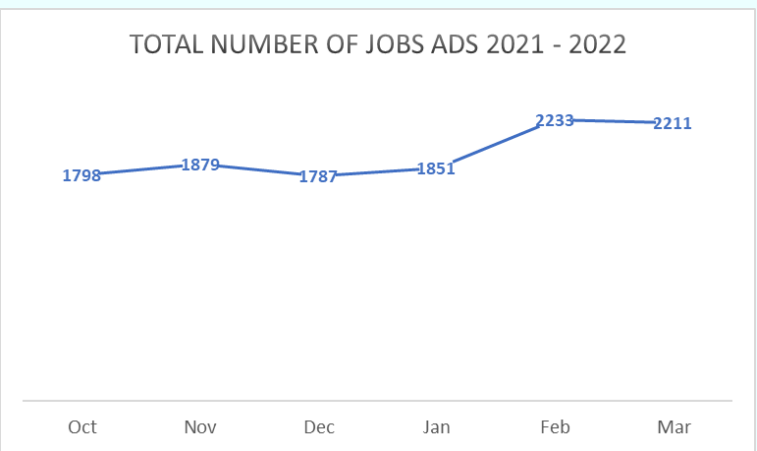
Swiss Graduate Jobmarket Monitor

Indicator J - Job Ads

This indicator monthly measures the published job ads on the platforms of 15 Career Services of Universities & Universities of Applied Sciences in Switzerland. The focus is on tracking job ads for graduates, e.g. career entry positions, traineeships, internships etc.

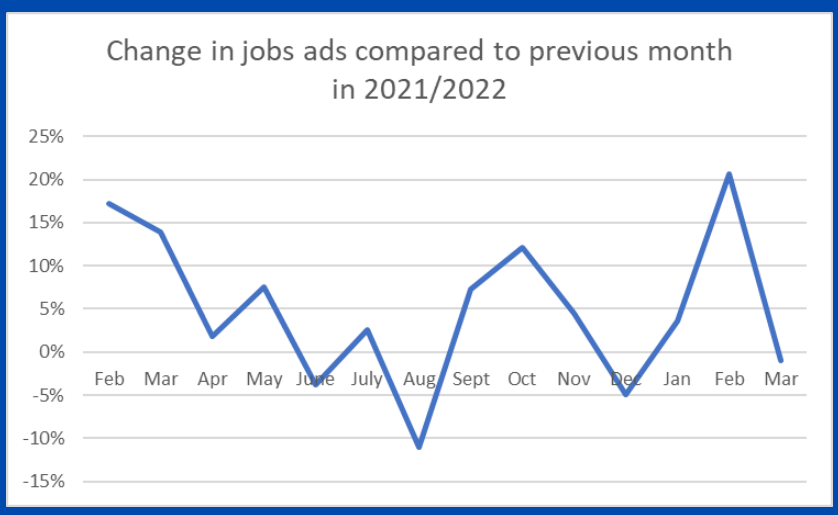


Development overall

Overall, the total number of job ads from all participating Career Services was stable during the last six months. There is a slight postive trend in Q1/2022 observable with +2000 published job ads in February and March.

Monthly comparisons

After a significant decline in job offers in August 2021, the economic recovery in September boosted the number of publications through December. This was followed by positive growth in January and February, the numbers remained stable in March.



Change in job ads compared to previous month per university 2021/2022

From university to university

Between 2021 and 2022, the number of job postings has stabilized annually. Therefore, it oscillates between months of growth and decline. There are significant differences existing between the Career Services: some reported an increase of +100% in March 2021, others had a decrease of -100%.

Impressum

The "Swiss Graduates Job Market Monitor" is a project of the Career Services Network of Switzerland (CSNCH), which attempts to record and map the development of the labour market for university graduates using four indicators.

The indicators of the monitor
J - Job ads
E - Employers
S - Students
C - Career Services employees
